MongoDB

PROJECTS / OPEN-SOURCE

CITY OF DONNA | [LINK](#)

React19, React Router V7, RTK, React Bootstrap, Apex Charts, SCSS

A dynamic admin dashboard for simulating city management, featuring real-time data visualization and user controls. Built with React 19 and Redux Toolkit (RTK) for scalable state management, paired with modular SCSS for responsive designshowcasing modern UI solutions for data-driven applications.

AI ADVISOR DASHBAORD | [LINK](#)

React.js, React Router V7, TanStack Query, React-Bootstrap, SCSS

Built a responsive AI-powered dashboard using React.js and React Bootstrap, providing real-time insights, data visualization, and efficient AI data management for decision-making.

READY TO DINE | [LINK](#)

React.JS, React Router V7, RTK, React Bootstrap, SCSS

Ready To Dine aims to simplify the dining experience by enabling users to explore restaurants, browse menus, and book tables online with ease. It provides a convenient platform for finding and reserving the perfect dining spot, enhancing the overall restaurant experience.

TATTOO SCAN WEB APP | [LINK](#) React.JS, React-Bootstrap, React-swiper, React-AOS, React-Router V6, SCSS, Formik, TanStack-Query

Built a React.js-based web app for scanning and processing tattoo designs, offering real-time image analysis and seamless user interaction.

PORTFOLIO WEBSITE | [LINK](#)

Next.js, SCSS, React-Bootstrap

Built a personal portfolio using React.js to showcase my skills, projects, and professional experience. Designed for easy navigation and a smooth user experience, it highlights my expertise in web development.
